

Quarterly Report for the Period Ended 31 March 2026

Kingsrose Mining Limited (ASX: KRM) (“Kingsrose” or the “Company”) is pleased to provide an update on its activities for the March 2026 quarter

HIGHLIGHTS

- Finnmark project: During the March quarter work continued to compile and interpret the extensive dataset from the 2025 exploration campaign. Key targets are expected to be defined, enabling efforts to concentrate on designated “camp areas” where integrated datasets highlight the highest-priority exploration targets for follow-up work in 2026;
- Finnmark project: Relationships with rights holders and stakeholders continue to strengthen, and the Company is progressing Process Agreements with the relevant reindeer herding districts;
- Penikat project: Following the December 2025 decision by the Northern Finland Administrative Court to overturn the granting of the Penikat Area 1 Exploration Permit, the mining regulator (Tukes) has applied for leave to appeal to the Supreme Administrative Court. Depending on case load within the Supreme Administrative Court, the Area 1 case is expected to be heard within 18 months;
- Penikat project: The Company has developed a refined permitting approach to facilitate drilling at the Penikat project as soon as possible. Key to the revised approach is excising Area 6 from Area 4 and pursuing a separate Exploration Permit Application with an Enforcement Order. Subject to Permit approval, it is anticipated that drilling can commence at Area 6 in December 2026 as it is outside the Natura 2000 and Mire Protection area;
- Business Development: The New Business program continues to investigate potential M&A project opportunities with detailed discussions underway with several third parties; and
- Cash balance of A\$19.349m as at 31 March 2026 (31 December 2025: A\$22.444m).

EXPLORATION & OPERATIONS

Company Updates

Kingsrose is exploring a large Fennoscandian portfolio of nickel, copper and PGE projects (Figure 1), including one of the largest scale generative exploration programs in Europe under an Alliance funded by BHP. The Company is also advancing permitting for drilling at the platinum/palladium Penikat Project, Finland which is 100% owned by Kingsrose.

Costs for the current quarter associated with the Penikat Project, Rana Project and Central Finland Projects were \$129k, \$103k and \$112k respectively. Total costs associated with the BHP Alliance were A\$2.022m, however, this was fully offset by funding from BHP.

Kingsrose-BHP Finnmark Exploration

To 31 March 2026, US\$3.4m of the US\$3.5m committed expenditure for Year 2 of the 'Project Generation Phase' of the Finnmark Alliance has been spent on exploration activities.

During the quarter, Kingsrose provided a progress update in its ASX announcement dated 2 March 2026. This announcement included final results from the 2025 airborne electromagnetic survey (HeliTEM) in Karasjok Central and Masi areas along with the completion of airborne gravity surveys. Interpretation of these datasets was completed during the quarter, producing a robust 3D geophysical dataset which the company is using to design follow-up ground surveys for the 2026 summer season.

The airborne electromagnetic survey identified several priority areas for follow up across Karasjok and Kautokeino Greenstone Belts:

Six clusters of discrete conductive anomalies in the Karasjok Central area (Figure 2):

- Cluster 1: A multi-line anomaly hosted by amphibolite and pyroxenite, within a complex, circular coincident magnetic and gravity high 1.6x1.2 km in size
- Cluster 2: A 700 m strike length conductor located on the northern margin of a North-South trending high magnetic intensity anomaly with central gravity high, hosted in serpentinite
- Cluster 3: A 450 m strike length conductor on the western margin of an elongated magnetic anomaly corresponding to mapped ultramafic units
- Cluster 4: A strong single line conductor on the northern end of a 3 km long coincident gravity and magnetic high inferred to be a concealed intrusion
- Cluster 5: Highly discrete single peak response across 400 m of strike on the northern end of a string of mapped mafic-ultramafic intrusions that include the mineralised, 2.05 Ga Gallujavri Ni-Cu-PGE occurrence acquired by Kingsrose in 2025 (see ASX announcement dated 27 May 2025)
- Cluster 6: A 350 m strike length conductor within a broader 1.3 km long cluster of electromagnetic anomalies coincident with magnetic and gravity highs and hosted by gabbro

Three clusters of discrete conductive anomalies in the Masi area (Figure 3):

- Cluster 7: A 500 m East-West trending, multi-line conductor coincident with magnetic highs and outcropping gabbro intrusions
- Cluster 8: A strong, single line conductor on the northeastern edge of large magnetic anomaly mapped as metagabbro
- Cluster 9: A 400 m strike length conductor on the southern margin of the Masi sedimentary basin

The Masi survey has been effective mapping out a 25 km wide, structurally complex basin of highly conductive sediments adjacent to mafic-ultramafic intrusions. This accumulation of likely graphitic and sulphidic sediments could act as a significant sulphur source for the mapped mafic-ultramafics within and surrounding the sedimentary basin.

Penikat Project, Finland

No exploration work was conducted at the Penikat project during the quarter, whilst permitting for drilling is being advanced on all six Areas.

Råna Project, Norway

No exploration activity was conducted at Råna during the reporting period. The Company considers the project remains highly prospective for nickel-copper-cobalt discovery and is evaluating an optimal path forward for the Råna Project.

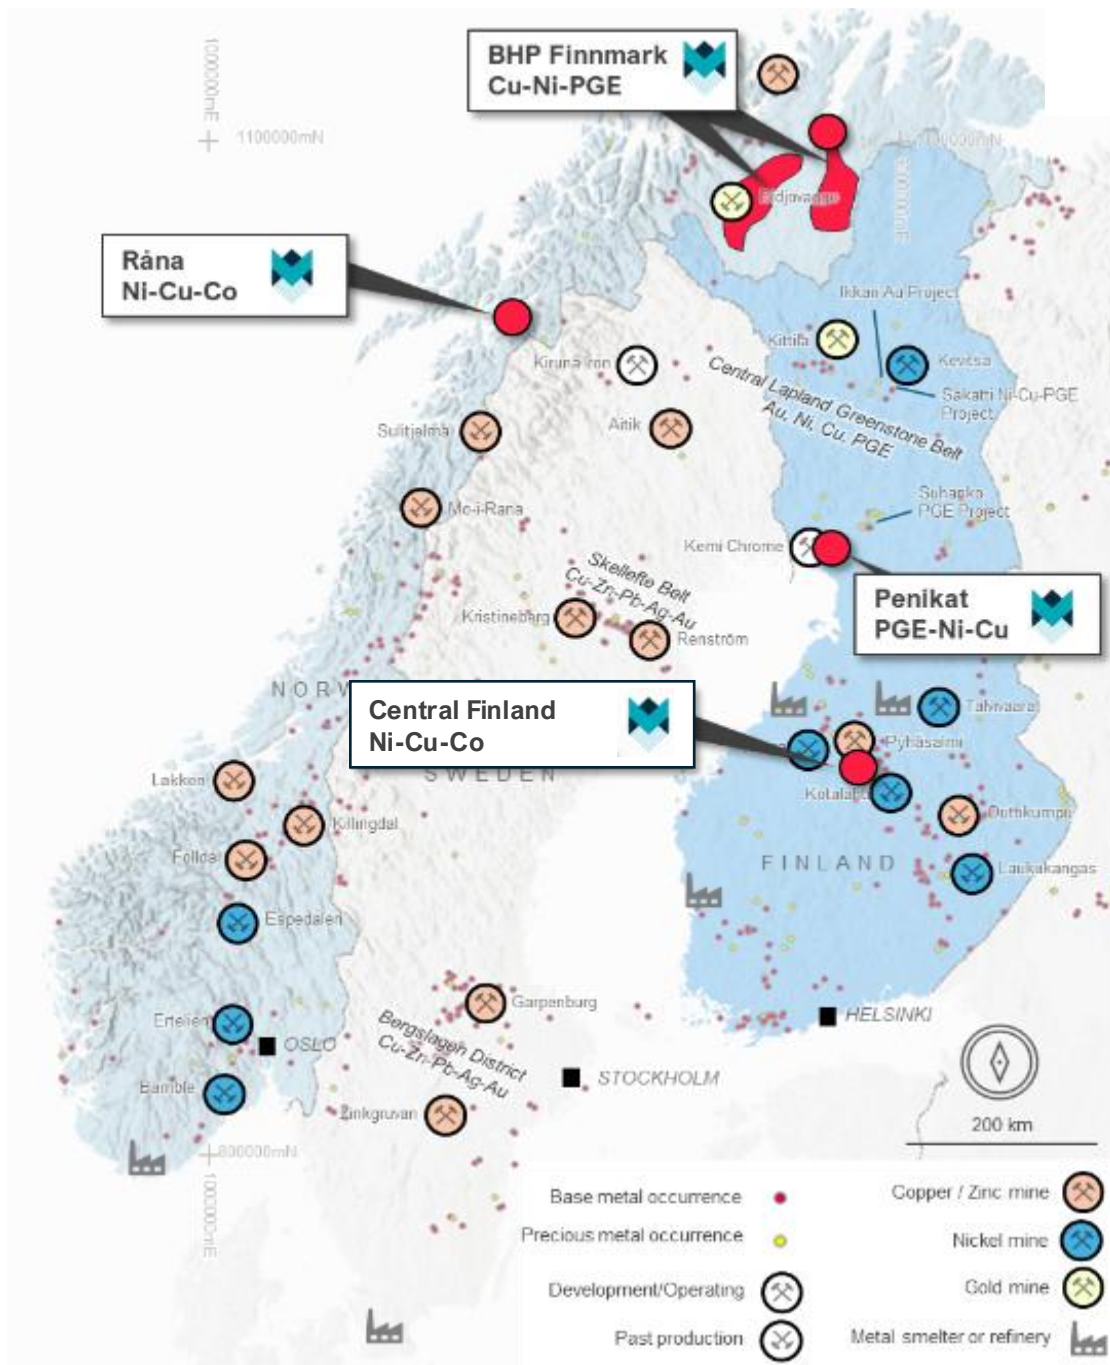

Figure 1: Location of the Penikat, Råna, Finnmark and Central Finland Projects within Fennoscandia.

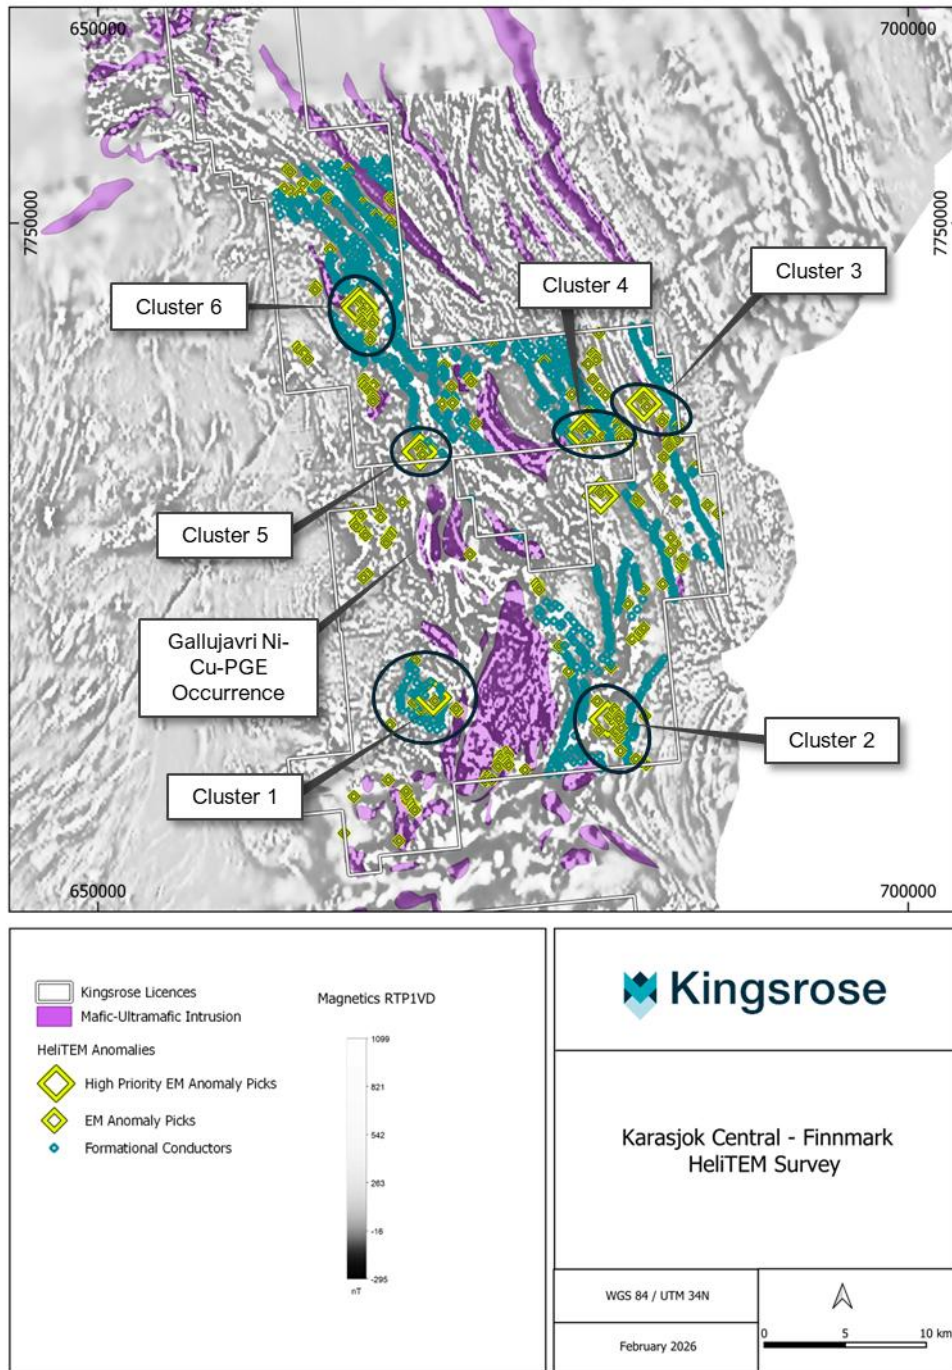

Figure 2: HelITEM anomaly picks overlain on RTP1VD magnetic, Karasjok Central area.

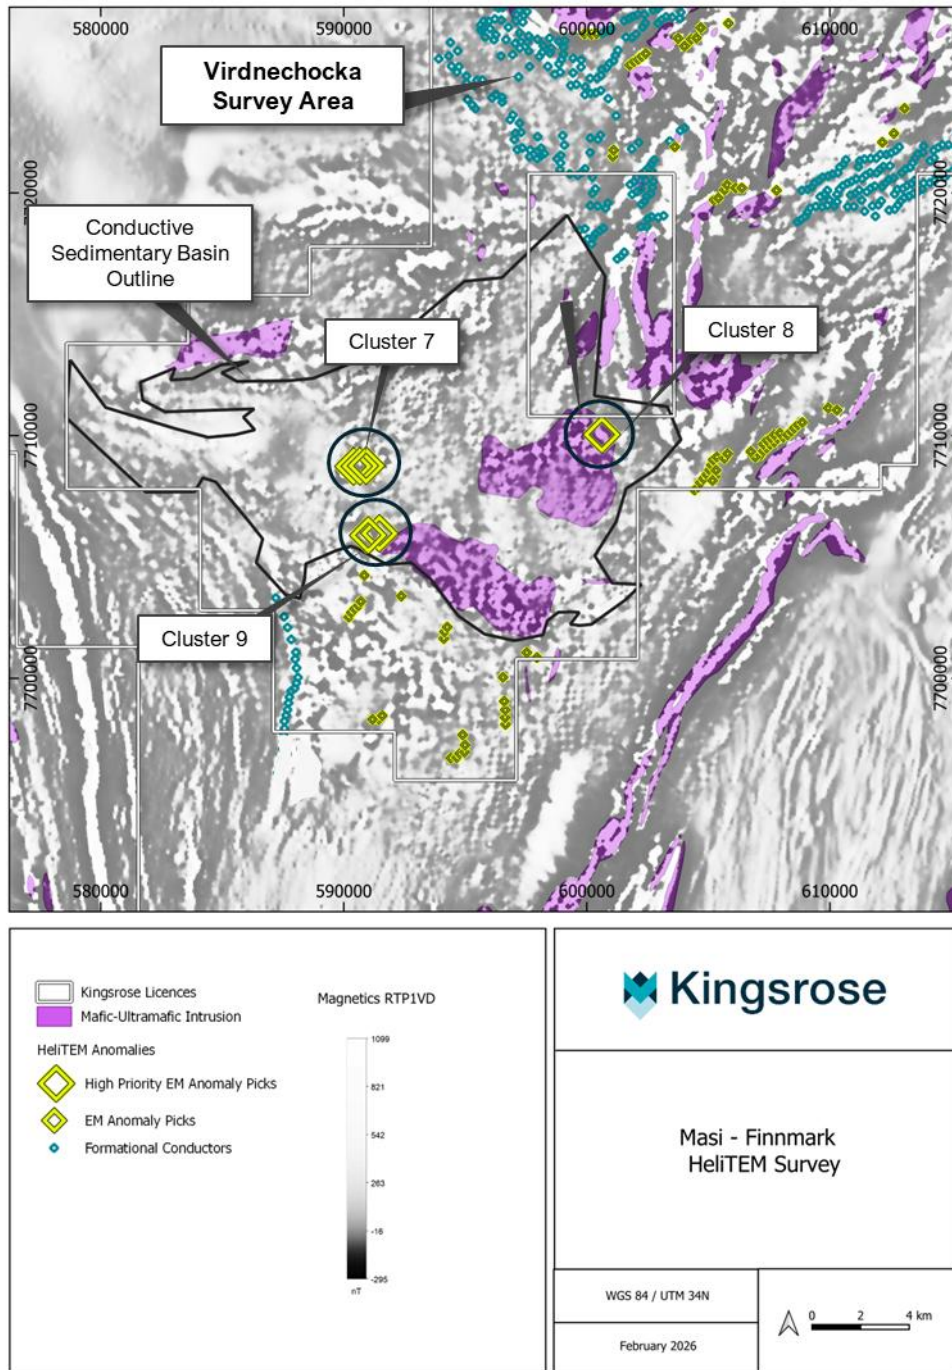

Figure 3: HelITEM anomaly picks overlain on RTP1VD magnetic, Masi area.

SUSTAINABILITY & PERMITTING

Råna Project, Norway

Kingsrose continues to foster relationships with nearby residents and the wider community while exploration on the project is paused.

Penikat Project, Finland

Subsequent to the quarter, Kingsrose provided an update for permitting for the Penikat Platinum/Palladium Project in Finland. The Company has excised Area 6 from Area 4 and is pursuing a separate Exploration Permit Application with an Enforcement Order for this area. This area is outside the Natura 2000 and Mire Protection areas. Subject to Permit approval, it is anticipated that drilling could commence at Area 6 in December 2026. Drilling from Area 6 will target the northern extension of the PV, AP and SJ reefs interpreted from geological mapping and historic shallow drilling.

As draft Exploration Permit Applications covering Areas 4 and 5 were submitted subsequent to the revision of the Finnish Mining Act in 2023, the Company understands that it will be possible to apply for, and receive, Enforcement Orders during the year. Should these Enforcement Orders be successful, drilling can commence in these areas in January 2027.

As draft Exploration Permit Applications covering Areas 2 and 3 were submitted prior to the revision to the Finnish Mining Act in 2023, Enforcement Orders are not possible. This means that if appeals are lodged, those appeals would be heard in the Administrative Court, which may delay drilling in Areas 2 and 3 until late 2028.

Following the decision by the Administrative Court of Northern Finland to overturn the granting of the Area 1 Exploration Permit (refer to ASX announcement dated 22 December 2025), the Company was informed that in February 2026 Tukes applied for leave to appeal to the Supreme Administrative Court. Depending on case load within the Supreme Administrative Court, the Area 1 case is expected to be heard within 18 months.

For further information, refer to the ASX announcement released to ASX on 13 April 2026.

BHP Alliance Finnmark, Norway

At Finnmark, relationships continue to strengthen with rights holders and stakeholders, and the Company is advancing Process Agreements with relevant reindeer herding districts. Work is underway to develop a work programme for FY 2026/2027.

CORPORATE

Cash and Term Deposits

- As of 31 December 2025, Kingsrose had cash balances of A\$19.349m (31 December 2025: A\$22.444m). This represents a quarter-on-quarter decrease of A\$3.1m detailed as follows.

Cashflow and Expenditure Review

- Net cash outflow from operating activities for the quarter was A\$2.9m (Dec 25 quarter: net outflow \$1.9m);
- Exploration expenditure during the current quarter was A\$2.3m consisting mainly of A\$2m on projects under the BHP Alliance, and A\$0.3m on the Penikat, Rana and Central Finland projects;
- Expenditure during the quarter relating to administrative and corporate costs, investor relations and business development activities was A\$0.82m. Receipts from bank interest and management fees for the BHP Alliance were A\$0.3m;
- Net cash used in investing activities was A\$0.1m for the quarter and represents payment for acquisition of the Jakon Project (paid on the one-year anniversary after signing the agreement - (refer ASX announcement 28 February 2025));
- Net cash used in financing activities was A\$0.1m for the quarter and represents payments for leased right of use assets in Norway and Jersey, and
- Movement of exchange rates on cash held in foreign currency represented a decrease in cash of \$28k, due to a slight strengthening of the Australian dollar relative to the United States dollar.

Related Party Payments

Payments of A\$69k reported in Item 6.1 of the attached Appendix 5B relate to fees paid to Non-Executive Directors (including superannuation).

Capital Structure

The following provides a summary of all securities on issue as at 31 March 2026:

About Kingsrose Mining Limited

Kingsrose Mining Limited is a leading sustainability-conscious and technically proficient mineral exploration Company listed on the ASX. The Company has a discovery-focused strategy, targeting the acquisition and exploration of critical mineral deposits. This has resulted in the acquisition of, or joint venture into, the Råna nickel-copper-cobalt and Penikat PGE-Base Metal projects in Norway and Finland. Additionally, Kingsrose was selected for the first cohort of the BHP Xplor exploration accelerator program which operated from January to June 2023 and was extended into two exploration Alliances. The Finnmark exploration alliance is still active.

Kingsrose is also actively looking for M&A projects with near term developmental potential.

Forward-looking statements

This report includes forward-looking statements, including forward-looking statements relating to the future operations of the Company. These forward-looking statements are based on the Company's expectations and beliefs concerning future events. Forward-looking statements are necessarily subject to risks, uncertainties, and other factors, many of which are outside the control of the Company, which could cause actual results to differ materially from such statements. The Company makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement to reflect the circumstances or events after the date of this announcement.

Competent Persons Statement

The information in this report that relates to Exploration Results at the Finnmark project was first reported by the Company in compliance with the 2012 edition of the JORC Code in ASX announcements dated 10 November 2021, 12 October 2022, 4 September 2023, 12 February 2025, 27 May 2025, 8 July 2025, 21 August 2025 and 2 March 2026.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the ASX releases referred to above and it further confirms that all material assumptions and technical parameters underpinning the exploration results and exploration target continue to apply and have not materially changed.

N/A			

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(2,854)
8.2	Payments for exploration & evaluation classified as investing activities (item 2.1(d))	(66)
8.3	Total relevant cash inflows / (outgoings) (item 8.1 + item 8.2)	(2,920)
8.4	Cash and cash equivalents at quarter end (item 4.6)	19,349
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	19,349
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	6.6

Note: If the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: Where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
